

We are looking for a

RESEARCH ASSOCIATE / TECHNICIAN – CELL THERAPY PROCESS DEVELOPMENT (M/F/D)

Research Associate / Technician will perform, document, and evaluate experiments independently or as directed, in a timely manner. The focus of the work is on the development and optimization of innovative manufacturing processes for Medigene's cell therapeutics in an R&D environment. In addition, they will perform general duties to maintain laboratory operations.

YOUR RESPONSIBILITY

- Planning and conducting experiments for the development and optimization of innovative manufacturing processes for cell therapeutics
- Working with viral vectors
- Planning and performing in vitro analyses for the characterization of cell therapeutics
- Evaluation and documentation of experiments
- Preparation of protocols and reports
- Presentation of results in the team
- Organizational tasks to maintain laboratory operations

YOUR PROFILE

- Bachelor or master's degree in immunology, cell-/molecular biology or similar qualification or successfully completed training as a technical assistant (BTA, MTA)
- Experience in the field of cell-based in vitro analysis (e.g. Flow cytometry, ELISA, ELISpot)
- Experience in the field of cell culture, preferably with primary human cells (e.g., T cells)
- Experience in cell therapy and/or the production of cell therapeutics is an advantage
- Experience in working with viral vectors desirable
- Knowledge in the field of immuno-oncology is an advantage
- Independent, responsible, careful, and goal-oriented way of working
- Team spirit, flexibility, and reliability
- Fluent in English (oral and written)
- Proficient in MS Office, GraphPad Prism, FlowJo., etc.

YOUR PERSPECTIVE

- ✓ You want to work within and shape a forward-looking and growing company?
- ✓ You are looking for a self-dependent and multilateral job with great scope for design?
- ✓ You want to work in a team with a pleasant working atmosphere and short communication channels?

The entire Medigene team looks forward to receiving your complete application, quoting reference number "TAZP01"

APPLY NOW!

Trenton Bruce is at your disposal as a contact person.
